

Trusted for over 29 Years

Veteran Owned and Operated 

Church PlazaTM

America's Church Resource
A Christian Workplace Company

America's leading comprehensive provider of church seating and other quality worship products and services.

Trusted for over 29 Years

Our Ministry is to Support Your Church.

ChurchPlaza's Pledge to You

1. We will provide only the highest quality products and services at fair prices and with trustworthy warranties that can be relied upon to be there if needed.
2. If a problem occurs, ChurchPlaza will work to resolve it quickly and with minimum disruption to your church.
3. ChurchPlaza sales representatives will only speak the truth, speak only about ChurchPlaza products unless pointing out differences in quality with other products and will not speak unflatteringly by name of a competitor.
4. ChurchPlaza will honestly promote and warrant our products without sales gimmicks, slick advertising or confusing offers.
5. ChurchPlaza representatives will try in all ways and at all time to be God honoring as we support your ministry.

Today, you have many choices in seating and other products and services for your church.

So, how do you separate the wheat from the chaff?

At ChurchPlaza, we've made the choices easier for you through our 3-Step Promise.

1. Quality!

You simply can't find better made or more trustworthy products and services than those we provide.

We carefully design, manufacture and select the finest products and services after meticulous research and testing. In most cases, these products and services are provided for ChurchPlaza and our exacting standards-standards that have been shaped through 29 years of experience as we assist more than 10,000 churches every year in their purchasing decisions.

2. Value!

Our combination of quality, low prices and trustworthy guarantees represents your best purchasing value.

We form long term, volume purchasing relationships with the finest manufacturers and services in the world while also eliminating their sales and marketing costs. The results are lower pricing and more benefits to the individual church than buying "direct." Because our only focus are churches and ministries, we know how to add valuable services and trustworthy guarantees that others won't or aren't able to provide the individual church.

3. Trust!

Our ministry is to support your church.

We have been owned and managed for 29 years by mature believers with a lifelong commitment to The Church. We are pledged to your well being. If problems occur, we will faithfully work to resolve them in a positive way while we strive to minimize distractions to your church.

At ChurchPlaza, you will always have peace of mind!

We provide your church with more than just quality products and services. We provide the very finest products and services...at the very best values...with helpful and knowledgeable consultants...and with guarantees you can trust. We provide your church with peace of mind. This is our ministry and our promise to you!

About ChurchPlaza

“ChurchPlaza was the first service provider endorsed and recommended to our **Willow Creek Association** members years ago because of the **QUALITY, VALUE** and **TRUST** they provide our association members. These are people you can trust!”

*Jerry Butler
The Willow Creek Association*

ChurchPlaza was formed to serve America’s churches, church schools, ministries and related organizations as a trusted resource for quality products and services. **Over the years, 45 national denominations, fellowships, ministries and/or their publishing houses and America’s leading provider of church insurance have endorsed and recommended ChurchPlaza to their members and churches.**

By bringing together the purchasing power of tens of thousands of churches, ChurchPlaza creates advantages in pricing, selection, service and guarantees that are simply not available to an individual church. Serving churches and ministries is our calling and our only business!

Most products and services are designed and manufactured specifically for ChurchPlaza. We eliminate the need for manufacturers and providers to incur marketing and selling cost to access the Faith Markets and we are able to provide churches with better than “direct” pricing.

Compare our values and exceptional quality, then add in the benefits of our trained sales consultants, warranties you can trust, our heart and history for ministry, and you can see why ChurchPlaza represents your church’s best purchasing value!

Please give us the opportunity to serve your church and you’ll see why we are known by thousands of American and International churches and ministries as their trusted resource and ministry partner.

For over 29 years ChurchPlaza has been the definable standard for quality church and sanctuary seating in America. That is why 45 national denominations, fellowships, ministries and/or their publishing houses have recommended ChurchPlaza to their churches. *No other provider has received even one endorsement!*

Church Plaza Seating provides more standard steel, virgin foam, Stafast™ T-Nut fasteners, solid wood or PolymerTough™ foundations, the highest grade commercial fabrics, upgraded features and well thought-out ergonomic designs in our seating products than any other provider of church seating. Our value pricing, trustworthy warranties, knowledgeable consultants and commitment to you will always provide great stewardship opportunities for your Church or Ministry!

The
Best Value
Space Saving
Design Series

Available with choice of full support lumbar back or dual lumbar cut-away back.

Space Saving Design with Big Chair Comfort

The Celebration chair is designed to allow extra space in your sanctuary while maintaining big chair comfort. The front to back measurement is 18½", which is 3" to 4" less than most other church chairs. This is accomplished by designing the legs to set back under the seat cushion, while still giving full seat size comfort, 3½ inches of dual-layer high density virgin foam and standard or optional dual lumbar back support. Celebration, a space saving, highly comfortable and ergonomically correct chair.

98% Recyclable since 1988.

Features & Accessories

The World's Highest Quality Church Seating

Strongest Frames

Always high tensile strength quality 1010 carbon steel. Our sanctuary chairs use TRUE 1 inch 16 gauge steel (not the weaker 18 gauge) with true mandrel bends with full 1 inch welds and 5/8 inch crossbars for foundations that will support over 1700 lbs and last a Lifetime.

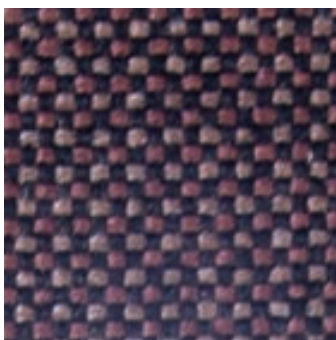

Chair Ganging

Our QuickRelease™ and retractable interlocking chair systems will satisfy building and/or fire code requirements. Easy, convenient and safe to use.

Durable Foundations

Our seat and back foundations are industrial quality 1/2" CARB 2 certified plywood (never imitation plywood such as OSB, Strandboard or Multi-Ply™) or Space age PolymerTough™ lightweight for superior strength and holding power. Our wood foundations are CARB 2 certified for safety from cancer-causing formaldehyde emissions.

Quality Fabrics

ChurchPlaza fabrics are among the highest quality commercial fabrics available and certified for wearability, color fastness and durability with MoistureBarrier™ protection added at no additional cost. 67 fabric choices to match any décor.

Stafast™ Fastening Systems

ChurchPlaza introduced "T"-Nut construction to the church seating market! We exclusively use Stafast™ steel-to-steel non-slip T-Nuts to hold our real plywood seat and back foundations to the world's strongest church chair frames. Provides 5X the holding power of wood screws and more holding power than BOS™ steel-to-plastic fastening system.

Plated Chair Dolly

Pivoting Chair Dolly

Chair Carts

Solidly built chair carts make moving your chairs quick and easy.

Trusted for over 29 Years

Underseat Bookracks

Durable welded factory installed and painted in the frame color of the chair installation.

Stack Buttons

Multiple stack buttons have positive tight fit to stay in place and protect the legs from marring during stacking. Clear buttons blend in and are less noticeable.

Removeable Bookracks

May be added to chairs after chairs manufactured. Must be removed prior to stacking chairs. Available in all 16 frame colors. Mount for front or rear book access.

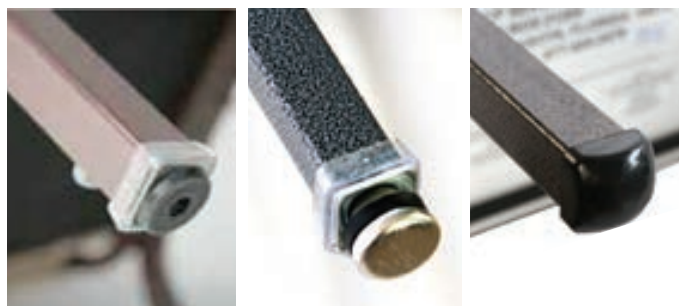

Dual Layer Foam

ChurchPlaza introduced the first dual layer foam chairs to the Worship Market in 1989 and we have continued to perfect the additional comfort of combining a firmer Virgin underfoam with a softer Virgin top foam.

Fold Down Tablet Top

Expand the use of your chairs for classroom, food service, etc. with our compact fold down tablet top. Available on select open back models.

Upgraded Floor Glides

We offer 3 choices of quality floor glides to best match your floor surface.

Book Pouches & Card Pockets

Visitor cards, offering envelopes, prayer cards, hymnals or Bibles - we have just the right sized pocket for them all.

ChurchPlaza Chairs are built to last!

The Frame is the Strength of the Design

Once you have the opportunity to try one of our ChurchPlaza chairs, you'll know why these chairs are built to last. When you first sit down, you'll immediately feel frames that were designed to support you forever. As you examine the construction of the frame and see the quality of the workmanship, you'll understand why we extend a LIFETIME frame warranty.

Heavy Duty Steel

ChurchPlaza frames are designed to be trouble free and are produced to exacting standards. We start with QUALITY STEEL that is precision welded, heavy duty, 1 inch, 16 gauge square tubing in the base, and 5/8" cross bracing.

TRUE Mandrel Tube Bending

The ChurchPlaza Standard is to build the strongest chairs possible! We use mandrel bending for the steel used in our chair frames. In that way, the excess material from the bend is channeled to the inside of the curve to provide a smooth, even, and strong bend. There is no crushing to compromise the integrity of the steel, thus insuring your church of a quality chair that will support you for a lifetime.

Quality in Design

Mandrel bending is only part of the story. The design of the frame is what is really noteworthy. We actually use multiple frame designs for ChurchPlaza Sanctuary Seating chairs (not like others who save money by using one frame design for all applications) with each designed for a specific application. All Sanctuary Seating frames have tubular cross bracing between the legs and not simply welded rods. This provides the ultimate support and strength and contributes to the design of the frame to exceed BIFMA standards.

Certified Safe Chair Components

ChurchPlaza is the first worship chair provider to laboratory certify all chair components safe and in compliance with applicable International, US, State and Industry standards for emissions from toxic cancer causing chemicals including formaldehyde and TDCPP. All wood foundations used are certified CARB 2 and compliant with US Standards for Composite Wood Products Act. All chair foam is free from formaldehyde and with non-detectable levels of TDCPP and compliant with California Proposition 65. Chair fabric has been laboratory certified in compliance with JIS112, European Oeko-Tex100 and American Restricted Substances List.

Bumper-to-Bumper Warranty

The industry's most comprehensive and trustworthy seating warranty from those who have earned the endorsements and recommendations of 45 national denominations, fellowships, ministries, and/or their publishing houses. Be sure to read the fine print and compare with other chair providers.

Frame and Fabric Standards

ChurchPlaza chairs are built to exceed the rigorous standards set by the Business and Furniture Manufacturers Association (BIFMA). Our fabrics are subject to the Wyzenbeek Abrasion Resistance test assuring the ability of the fabric to withstand years of use without showing signs of wear. You can feel confident that your chairs are going to continue to look good, even after rigorous use.

Frame Finish

Scratch Resistance is the benefit of our 5-Step Electrostatic painting process, known as "Powder Coating." The paint used in ChurchPlaza chairs electronically bonds to the metal for a superior and durable finish. This is the same process used in automotive painting. It resists scratching, chipping and peeling so your chairs will retain their "like new" look over many years of use.

Foam Comfort: Two Are Better Than One

Our quality engineered dual layer foam construction has re-vitalized seating comfort and added to the life expectancy of our foam seats. The top layer of high density virgin polyurethane foam provides luxurious plush comfort. The base layer of durable foam provides durability and support, preventing bottoming out on the seat foundation. All the foam in ChurchPlaza seating is top quality, high density virgin foam and not recycled or re-manufactured foam. Comfort beyond expectation!

Better Built with 1/2" Industrial Grade Plywood and PolymerTough™ Foundations

Our chair's quality foundations are a key to providing the ultimate in support and durability for the life of the chair. ChurchPlaza's quality CARB 2 certified plywood is resistant to cracking and unwanted flexing found in less expensive particle board or manufactured plywood, known as Strandboard, OSB and Multi-ply™. Seats and backs are attached using Stafast™ T-Nuts (not wood screws or metal-to-plastic dashboard fasteners) to insure a positive secure anchor to the frame. Stafast™ T-Nuts provide positive steel-to-steel contact and prevent screws from working loose and falling out. With PolymerTough™ Technology Seating, the finest polymers are used with the very latest blow and injection molding and proven durable fastening technology to provide you with a truly trouble free Sanctuary seat.

Lumbar Back Support System

The ChurchPlaza collection of sanctuary chairs are available in multiple back designs. Our Back Support Systems are designed to provide the optimum comfort for the upper back area, additional support for the lumbar area and superior support for the back. Lumbar support is standard on all ChurchPlaza sanctuary chairs; this is accomplished by inserting extra foam in the lumbar area. To enhance the comfort many churches are selecting the dual lumbar cut-away support option. The back is in two sections, the upper section has 1 1/2" of foam plus 3/4" of added foam in the lumbar area and the lower section of the back foam is cut away, providing extra gentle pressure in the lumbar area of the back while also giving additional seat room. Comfort without compromise.

Fabric Durability, Testing and Quality Control

ChurchPlaza sanctuary chairs are upholstered with only the highest grade commercial fabrics from quality mills. These mills have been selected to produce fabrics for the finest quality manufacturers of furniture and the automotive industry. Their quality control is the highest in the fabric industry. The fabric we recommend as our standard exceeds the standard surface abrasion test known as the Wyzenbeek test. Heavy duty is rated at 15,000 double rubs; our choices can exceed 150,000 double rubs. The Break Strength test (ASTM-D-1682) normal is 50 lbs. while our tests to 276 lbs. The tear resistance is almost 50 lbs., when the standard is 6 lbs. (ASTM-D-2262). All fabrics meet Cal 117 fire code. Our fabric will continue to keep its appearance for years to come. Expansion in the future with additional chairs will continue to match the original in color and good looks. Now standard with MoistureBarrier Fabric™ at no additional cost to protect your chairs and foam from spills and accidents.

The ChurchPlaza Warranty

Our Trustworthy Stackable Seating Warranty™ is the industry's most comprehensive and includes:

- Lifetime frame and glide guarantee
- 25 year structural seat and back warranty
- 25 year workmanship warranty
- 10 year and 25 year foam warranty
- 10 year fabric protection

Portable Stages and Risers

ChurchPlaza provides you with the options you need to adjust your performance staging to each presentation.

All units fold flat to store and may be transported to the event location using convenient caddies.

New are the TransFold choral risers with built-in wheels to make transporting easy and safe.

Set-up is easy with the Gas-Spring lift assist, one person can transport and set-up safely with ease.

Choir, Band and Orchestra Risers

Portable riser sets enhance on-stage performances and help facilitate instruction in the practice room. Sets include all components necessary to construct horseshoe, winged and arc shaped riser configurations. Guard rails are furnished for the uppermost level of the riser set.

Portable Stages

Portable stage platforms may be assembled to any size performance stage. Units fold flat when stacked for storage and unfold from storage to setup in minutes. Sturdy for long life and rigid for perfect safety. Shipped completely assembled. Choose mobile units with their own wheel sets, or standard and store and move on caddies. Integral drop in couplings allow stages to be joined together. Stages safely support a uniform load of 200 pounds per square foot.

Transfold Choral Risers

TransFold is ready to go where ever your choir or group performs. Built-in wheels make it easy to roll the unit from classroom to the auditorium or up stairways and on the bus or van. At the performance site risers set up in seconds so they will be ready when you are. Gas spring lift assists make set up simple and easy for one person.
